Patent Information Form for Contributions to IMTC

Attach to all Technical Contributions to IMTC

This form provides IMTC with information about the IPR status of techniques used in or proposed for incorporation in a Deliverable. IMTC requires that all technical Contributions be accompanied with this form. *Anyone* with knowledge of any granted, pending, or planned patent affecting the use of IMTC work, of their own or of any other entity (“third parties”), is strongly encouraged to submit this form as well.

This information will be maintained in a “living list” by IMTC during the progress of their work, on a best effort basis. If a given technical proposal is not incorporated in the Deliverable, the relevant patent information will be removed from the “living list”. The intent is that the IMTC experts should know in advance of any patent issues with particular proposals or techniques, so that these may be addressed well before final approval.

This is not a binding legal document; it is provided to IMTC for information only, on a best effort, good faith basis. No patent search is required. Please submit corrected or updated forms if your knowledge or situation changes.

This form is *not* a substitute for the *IMTC Licensing Declaration Form for IMTC Deliverables*, which should be submitted by Patent Holders to the IMTC Secretariat before final approval – please see the IMTC IPR Policy.
