Title: H.264/AVC codec donation to facilitate 3GPP
standardization - Licensing Statement
Document for: Information
Agenda Item: 9, 14.1

Informally, Nokia has offered to donate our H.264 video codec codebase so to facilitate the work in 3GPP on video codecs.

Attached Nokia's licensing/copyright/warranty statement that will be included in all source files of the H.264/AVC codec, if and when the codec is donated. We believe this statement is final, but reserve the right to change it at any time before the final announcement.
